I'm a passionate and motivated individual with a strong interest in web design and development, especially in creating clean, responsive, and user-friendly websites. I've created real-world projects like a Travel Management Website and an E-commerce Website using HTML, CSS, and JavaScript, with a focus on good design and smooth user experience. I also enjoy using Figma to design intuitive and visually engaging interfaces. I'm always curious to learn new tools and technologies, and I look forward to growing in the IT industry by contributing to impactful and well-designed digital products.

## EDUCATION

<b>Francis Xavier Engineering College</b> B-Tech, Computer Science and Business Systems, 2021 - 2025	<b>Tirunelveli, Tamilnadu</b> CGPA: 7.39
<b>Cathedral. Hr. Sec. School</b> Higher Secondary Certificate, 2021	<b>Tirunelveli, Tamilnadu</b> Percentage: 73.7%
<b>Cathedral. Hr. Sec. School</b> Secondary School Leaving Certificate, 2019	<b>Tirunelveli, Tamilnadu</b> Percentage: 63.6%

## SKILLS

**Technical Skills** – C | HTML | CSS | JavaScript | Figma

Developed a strong foundation in **C programming** with practical experience in writing logical, structured code. Proficient in **front-end web development** using **HTML**, **CSS**, and **JavaScript**, crafting responsive and user-friendly interfaces. Additionally, utilized **Figma** for UI/UX design, wireframing, and prototyping to create visually engaging and user-centric web layouts. Eager to contribute and grow within a collaborative IT environment.

I am also proficient in English and Tamil, which helps me communicate clearly in both personal and professional settings. I can work independently with responsibility and focus, and I also enjoy being part of a team where collaboration and shared ideas lead to better outcomes.

## PROJECTS

- **Travel Management Website**  
Designed and developed a Travel Management Website specifically tailored for backpackers using HTML, CSS, and JavaScript. Built responsive and user-friendly interfaces featuring pages for itineraries, bookings, and admin functions. The project emphasized structured layout, scalability, and intuitive navigation for a smooth user experience.
- **Figma Website Design**  
Designed and prototyped a professional landing page for an IT consulting company using Figma. Created a clean, modern layout with a clear visual hierarchy, incorporating sections for services, case studies, client testimonials, and contact forms. Focused on consistent branding, intuitive navigation, and professional aesthetics to enhance user engagement. The prototype emphasized usability and scalability, making it ready for seamless handoff to developers.

## DECLARATION

I hereby declare that all the details and particulars furnished above are true to the best of my knowledge.
