I am a motivated full-stack developer with a strong focus on building reliable, scalable, and maintainable web applications. I enjoy working on real-world problems, collaborating with teams, and delivering features that improve user experience and business outcomes. With a solid understanding of end-to-end application development, I can contribute to both frontend and backend tasks, write clean and efficient code, and adapt quickly to new requirements. I am eager to grow within an organization where I can continuously learn, take ownership of responsibilities, and contribute to building high-quality digital products.

## SKILLS

---

### Technical Skills:

- Design & Prototyping Tools : Figma | Photoshop
- Programming Languages : HTML | CSS | Javascript | Python
- Frameworks & Libraries : Reactjs
- Backend Technologies : Node.js | MongoDB

I can work with HTML, CSS, JavaScript and can use React.js to build dynamic and responsive web applications. I can design intuitive and visually engaging interfaces in Figma.

## PROJECTS

---

- Travel Management Website:

A MERN stack web application showcasing full-stack development using React for the frontend and Node.js with Express for backend APIs. MongoDB is used for data persistence and schema design, with secure authentication and API-driven communication between client and server.

- Figma Website Design:

Designed and prototyped a professional landing page for an IT consulting company using Figma. Created a clean, modern layout with a clear visual hierarchy, incorporating sections for services, case studies, client testimonials, and contact forms. Focused on consistent branding, intuitive navigation, and professional aesthetics to enhance user engagement. The prototype emphasized usability and scalability, making it ready for seamless handoff to developers.
