I'm a passionate and motivated individual with a strong interest in UI/UX design and web development. Skilled in Figma, I specialize in creating intuitive, visually engaging, and user-friendly interfaces that deliver seamless digital experiences. Alongside design, I have hands-on experience with React.js and core web technologies such as HTML, CSS, and JavaScript, allowing me to bring designs to life with responsive, clean, and efficient code. Curious and eager to grow, I aim to contribute to the IT industry by crafting impactful and well-designed digital products.

SKILLS

Technical Skills:

- ➢ Design & Prototyping Tools : Figma | Photoshop

- ➢ Programming Languages : HTML | CSS | Javascript | Python

- ➢ Frameworks & Libraries : Reactjs

- ➢ Backend Technologies : Node.js | MongoDB

- ➢ Testing: Manual Testing, Test Case Execution, Bug Reporting

I can work with HTML, CSS, JavaScript and can use React.js to build dynamic and responsive web applications. I can design intuitive and visually engaging interfaces in Figma.

PROJECTS

- ● Travel Management Website:

  Designed and developed a Travel Management Website specifically tailored for backpackers using HTML, CSS, and JavaScript. Built responsive and user-friendly interfaces featuring pages for itineraries, bookings, and admin functions. The project emphasized structured layout, scalability, and intuitive navigation for a smooth user experience.

- ● Figma Website Design:

  Designed and prototyped a professional landing page for an IT consulting company using Figma. Created a clean, modern layout with a clear visual hierarchy, incorporating sections for services, case studies, client testimonials, and contact forms. Focused on consistent branding, intuitive navigation, and professional aesthetics to enhance user engagement. The prototype emphasized usability and scalability, making it ready for seamless handoff to developers.
